Index to Volume 32, 1969

Page numbers preceded by '(P)' refer to the summaries of papers at the Meetings of the Society of British Neurological Surgeons.

ABELL, M. R. *See* OLSON, J. R., and ABELL, M. R.
Abscess, cerebellar, metastatic, producing nerve deafness, **360**
Acetylcholine, electrophoresed, sweating response to, as test of postganglionic sympathetic function, **155**
Acromegaly, optic nerve compression in, relief by anastomosis of carotid artery to jugular vein, **268**
—, stereotactic treatment with yttrium^{90} and cryosurgery in, **48**
Acrylamide poisoning, peripheral nerves in, electrophysiological and histological studies of, **186**
ADAMS, C. W. M., and HALLPIKE, J. F.: Histochemistry of neuroglia and myelin breakdown (P), **163**
ADAMS, J. H., BRIERLEY, J. B., and CORSELLIS, J. A. N.: The nature and distribution of the ischaemic lesions resulting from brain swelling (P), **65**
Addison's disease and diffuse cerebral sclerosis, **344**
ADELOYE, A., SERIKI, O., LUZZATTO, L., and ESSIEN, E. M.: Intracranial ventricular haemorrhage as a first presentation of haemophilia: a case of successful surgical management, **470**
Adrenocorticotropic hormone, massive short-term and maintenance treatment of myasthenia gravis with, **290**
Adenoma, chromophobe, pituitary, size of suprasellar portion and safety of operation (P), **633**
AFIFI, A., ZELLWEGER, H., MCCORMICK, W. F., and MERGNER, W.: Congenital muscular dystrophy: light and electron microscopic observations, **273**
Aggressiveness, chronic, posterior cingulectomy for (P), **68**
Air embolism in neurosurgery (P), **631**
ALLEN, I. V. *See* HURWITZ, L. J., CARSON, N. A. J., ALLEN, I. V., and CHOPRA, J. S.
Allergic encephalomyelitis, experimental, and multiple sclerosis, immunological factors revealed by mammalian nerve tissue cultures (P), **163**
Alloxan, diabetes induced by, effect of hypoxia on excitability of isolated peripheral nerves in rats with, **462**
—, properties of isolated nerve fibres from rats treated with, **525**
AL-MUFTI, S. T. *See* GARDNER-THORPE, C., and AL-MUFTI, S. T.
Amine changes, relation to headache after administration of reserpine to migrainous patients, **555**
Aminoaciduria, congenital ophthalmoplegia, floppy baby syndrome and myopathy, family study of, **495**
Anaesthetics, volatile, effect on intracranial pressure in space occupying lesions (P), **68**
ANDERSON, J. M.: Spongy degeneration in the white matter of the central nervous system in the newborn: pathological findings in three infants, one with hyperglycinaemia, **328**
Aneurysms, intracranial, optic nerve compression in, relief by anastomosis of carotid artery to jugular vein, **268**
Aphasia, receptive, in childhood (P), **67**
Apoplexy, cerebral, transient embolic occlusion of middle cerebral and internal carotid arteries in, **236**
APPENZELLER, O., and SNYDER, R. D.: Autonomic failure with persistent fever in cerebral gigantism, **123**
Arteriovenous malformations, cerebral, post-mortem arteriography of, **432**
— shunt between carotid artery and jugular vein for relief of vascular compression of optic nerves, **268**
Arteritis, giant-cell (temporal), electron microscopy of, **348**
Ataxia, hereditary, presumably of Menzel type, complicated by paranoid psychosis, in mother and two sons, **82**
—, transient, in disseminated sclerosis, **230**
Atrial myxoma, left, as treatable cause of stroke, **129**
Atrophy, multiple system, orthostatic hypotension and nicotine sensitivity in, **28**
Autoimmunity in myasthenia gravis, experimental studies related to, **281**
Autonomic failure with persistent fever in cerebral gigantism, **123**

BARKER, J. *See* MCDOWALL, D. G., JENNETT, W. B., FITCH, W., and BARKER, J.
—. *See* MILLER, J. D., and BARKER, J.
BARRIE, M. *See* CURZON, G., BARRIE, M., and WILKINSON, M. I. P.
Basilar migraine, objective method for clinical investigation of visual fields in, **479**
BICKNELL, J., and CROME, L.: A case of leucine-induced hypoglycaemia, **399**
BLACKWOOD, W. *See* HERSKOVITS, E., and BLACKWOOD, W.
BLEASEL, K., and FREW, J.: Vascular compression of the optic nerves relieved by anastomosis of carotid artery to jugular vein, **268**
Blindness, cortical, and functions of non-geniculate fibres of optic tracts, **259**
Blood flow, carotid, abnormalities of, screening test using Technetium-99m for, **379**
— —, cerebral, effect of neuroleptanalgesic drugs (P), **631**
— —, —. *See also* Intracerebral steal syndrome
— —, of forearm muscle, habituation in phobic anxiety, **15**
— —, regional, in normal cerebral hemisphere, **367**
— volume and pulse volume, indices of peripheral vasoconstriction based on, and galvanic skin reflex, relationships between and sensitivities of, **197**
BOLTON, C. F. *See* CLEIN, L. J., and BOLTON, C. F.
BOND, M.: Pain and personality (P), **65**
